Trespassing case.

Mrs. Main stated that on the 19th inst she saw Field go through the fence and on to her pasture. She had notices up at the time warning people not to trespass. Her son went to Field and asked him if he had seen the notices. Field said he had. The 19th was the first time they had seen him going through the field.

Hilton Main corroborated the previous witness' evidence and stated that he saw men holding the wire down in order to let the car pass through.

Defendant, giving evidence, said he and Mr. Kennagh had to come into Strathmore in order to get a casket for Mr. Kennagh's baby who had died that day. They got stuck coming into town and on the return journey went through Mrs. Main's field as the road was so bad. Notices were up but they were so faint they could not be read from the road. Kennagh got out and stepped on the wire in order to let the car pass through and he put the wire back on a nail on the post. Hilton Main rode up and asked if they had seen the notices and witness said they had. He considered it a case of necessity, as they had to get the casket back to Kennagh's place.

Constable Egan, Provincial Police asked for a conviction in this case in order to put a stop to this kind of thing.

Defendant agreed to put the fence in that state of repair as it was previous to crossing and was fined the nominal sum of \$1.00 and costs, the costs amounting to \$12.75 (The costs were high owing to the fact that the constable had to hire an automobile to serve the summons, and this drew from the Magistrate's remark that he thought it high time the Provincial authorities provided their constables with some means of transportation in order that persons charged would not have to pay these heavy costs in cases where a nominal fine was imposed.

Dr. J. W. Giffen, charged with a similar offence pleaded guilty and was assessed \$1.00 fine and \$2.75 costs. He also agreed to fix up the fence.

Miss Richards, of Calgary, is teaching at the Public School, in the place of Miss Bell, who is on the sick list.

BUY AN IRRIGATED FARM

FROM

THE CANADIAN PACIFIC RAILWAY

BECAUSE

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year. Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures good returns in dairying and mixed farming. Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community. Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 per acre, with twenty years to pay and the privilege of a loan of \$2,000 for improvements (6% interest) no principal after first payment until end of fourth year, reduced interest if settlement conditions are complied with, and no water rental for first year. Contract can be paid off before maturity if desired.

This is the most liberal offer of irrigated farm land on record. For full particulars, apply to **ALLAN CAMERON**, General Supt. of Lands Canadian Pacific Railway, Dept. of Natural Resources 323 First Street, E. Calgary, Alberta

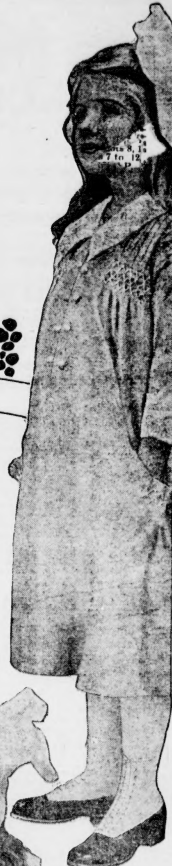

A HANDFUL OF "EVERYDAY" FROCKS FOR LITTLE SISTER

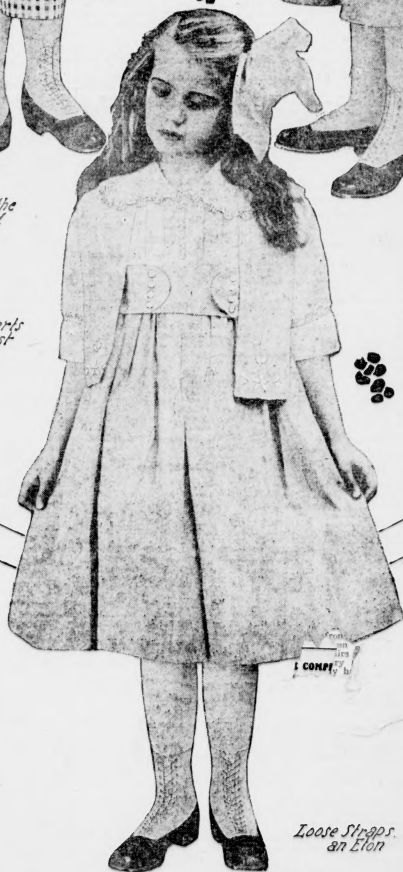

Quaint Version of the Gingham Frock

*Revival of the
Jumper and
Gumpe*

*Striped Inserts
for Contrast*

*Loose Straps
an Eton*

EVERYWHERE there is evidence that Mother Nature is waking her children and is putting new clothes on them. The crocuses and snowdrops have spread their petals to the caress of the sun and breezes, the trees are being clothed in suits of green, and all this is to the strain of sweet music coming from the feathered creatures who have taken up their abode in their spring homes. Likewise human mothers are thinking about new spring attire for their human children, and to aid them these five keys to youthful smartness are put in their hands.

Good news for the woman who likes to put gumpees on her children is that the jumper style has been revived. A very pleasing example of the fashion is seen in the brown-and-white checked gingham overdress, made with a quaint bodice and ample pockets on the skirt. Beneath it is worn a tucked gumpee of white handkerchief linen.

Proving that there is as much smartness in gingham as in more pretentious materials is the pink-and-white frock distinguished by a simple cross-stitch design. Even the ead-shaped pockets are finished with the hand stitches. A belt that holds in the fullness stops at the side so that the straight line from neck to hem will not be broken. A sectional collar of white pique emphasizes the pinkness of the gingham.

Another version of the jumper dress is seen in the green chambray model with the jacket composed of two straps giving the effect of the eton jacket which is invading the fashions for grown-ups. Notice the effect which just a little touch of hand embroidery gives. The broad straps are faced with self-material and are merely tacked to the broad belt so that they can be

easily removed when the dress is laundered. The tucked gumpee is of white lawn and is topped with a lace-edged collar. The gumpee is quite long and equipped with an elastic band so that it can be held down snugly.

A tailored model is the brown linen frock made with inset panels of brown-and-white striped linen. While the low placing of the belt may be becoming to some youngsters, it may look very awkward on others. For this reason mothers must experiment before finally deciding upon a permanent position.

Patterned after big sister's smock is the blue linen model. Tucks at the shoulders and smocking provide the smock with fullness. Smocking is used also to elaborate the pockets. A feature that will delight the kiddie's heart is the fact that the smock fastens with links made of crocheted buttons and braid. White linen collar and cuffs relieve the solid color of the garment.

WHAT ARE YOU DOING TO HELP WIN THE WAR

Alberta, Saskatchewan and Manitoba.

The above is the name of a new booklet issued by the Department of Colonization and Development of the C.P.R. As its name implies, it is a description of these three great provinces, with particular reference to their agricultural resources. Although designed primarily to interest intending settlers in C. P.R. lands, the booklet contains a vast amount of general information to all who have thrown in their lot in Western Canada, or who may contemplate doing so. In addition to general descriptive matter the booklet contains tables of Western Canada's temperatures and precipitations, an article on the grain trade tables of elevator capacity and grain prices, average yields of grain for last 17 years, livestock statistics, an article on the value of irrigation, and information on such topics as "ready-made" farms, naturalization, school system, agricultural education, railway facilities, taxation, system of land survey, etc. The booklet is handsomely illustrated with 84 photographs of scenes in Western Canada and includes a railway and land map of Western Canada. Any person interested may obtain a copy without charge by writing to the Publicity Branch, C.P.R. Calgary.

Canada in the Conflict

Some striking figures which bring out in bold relief the part that the Dominion has played in the war, were given by the Hon. F. B. McCurdy, Parliamentary Secretary of the Department of Militia in an address at Halifax on "Canada in the Conflict,"

Mr. McCurdy said that taking the number enlisted in the C.E.F., (477,302) and adding thereto the permanent force, active militia, naval service, direct enlistments in the British service and Canadians who had as reservists joined the colors of their mother countries, who are our allies, 449,184 Canadians resident in the Dominion at the outbreak of the war have left their previous pursuits and had taken up arms.

Notwithstanding the lamentations of those who say that recruiting is dead enlistments were still coming in at the rate of more than 7,000 per month. "Who," he asked, "before the war would have thought it possible that after two and one-half years of war and after 449,000 Canadians joined the Allied forces, men would under the voluntary system be coming forward at a rate of over 85,000 a year?"

After referring to the magnificent part the women had taken in the war, Mr. McCurdy said that 37 wards of 1,000 women, all mothers, sisters or daughters of overseas men, were engaged in carrying on the work of the Militia Pay and Records office at Ottawa.

The most recent table of Canadian casualties to March 25th showed:

Killed in Action	12,265
Died of Wounds	4,379
Died of Sickness	684
Presumed dead	1,144
Wounded	52,095
Missing	2,630
Prisoners of War	2,373
TOTAL	77,558

He showed that while Canada is fighting, business is flourishing. Whereas in the last pre-war year Canada's adverse foreign trade balance had been \$309,000,000, this year shows instead a creditor balance of \$235,000,000, an improvement of 12 months of \$634,000,000, and the total value of foreign trade is crowding up close against the two billion mark.

Canada has enlisted six and one-quarter per cent of her total population. By provinces, the enlistment in proportion to population as follows.

Quebec, 4 1/2 per cent, Prince Edward Island, 7 1/2 per cent, Nova Scotia, 4 1/2 per cent, New Brunswick, 5 per cent, Ontario, 6 2 1/2 per cent, Manitoba and Saskatchewan, 6 2 1/2 per cent, Alberta, 9 1 1/2 per cent, British Columbia, 10 per cent.
